Fran Wheeler, Ph.D.
Director
Center for Health Promotion
S.C. D.H.E.C.
2600 Bull St.
Columbia, SC 29201

Dear Dr. Wheeler:

The American Heart Association is proud to support and participate in the South Carolina Coalition on Smoking and Tobacco Control. As you may know, smoking is the most preventable risk factor of heart disease, the number one killer of South Carolinians. The American Heart Association is dedicated to the cause of this coalition and offers support to achieve its goals.

From the organizational meeting, it was obvious that the group addressed key issues in South Carolina. I am confident that this coalition would have great impact. I am also confident that the South Carolina Department of Health and the American Cancer Society will be strong leaders of the group and are capable of administering funds allocated for the coalition.

Please keep us informed of the next meeting date so we can participate.

Yours In Health,

Quincy S. Neal
Executive Director
